Last date: 26th March, 2025

The premier **Library and Information Science** school in India

ABOUT DRTC

As a constituent unit of Indian Statistical Institute, the Documentation Research and Training Centre (DRTC) was founded by Prof. S. R. Ranganathan in 1962. It is a globally recognized school for advanced training and research in Library and Information Science. DRTC has been renowned for its pivotal role in shaping academic and research advancements, providing consultancies & training to the industries and academic institutions and contributing to national committees and government initiatives.

ABOUT PROGRAMS

The MS(LIS) and JRF(LIS) are the advanced academic programs focusing on the applied aspects of Information Technology within the field. Upon completion, students will acquire the competencies essential for engaging in academic pursuits or undertaking substantial responsibilities in various private and public sector organizations. The alumni of our programs have been serving both in academic roles such as teachers, librarians, and scientists, and in industry positions like knowledge managers, content managers, ontologists, and taxonomists.
